## **The Pains of Progress**

With Phase 1 of construction completed, we will have a new entry point at Walker Drive that will connect Sharon Circle to Newton Road. Diane Circle and Owenby Drive have been graded to shed water into newly dug ditches. Swales and culverts are being installed as needed, and two rounds of gravel on each road. Phase 2 consisted of logging behind Sharon Circle. This will fund the completion of grading and gravel on main roads (Owenby Drive, Diane Circle, and Walker Drive.) The final phase will consist of grading remaining secondary roads and gravel as well as completion of Walker Drive in the spring.

We have so many opportunities available to us to breathe new life into our community. Your feedback, ideas, and suggestions are always welcome, and we are making it easier to contact us via postal mail, email, website (coming soon), or a good old knock on the door. We want all member owners to take an active part in our restoration.
